

Loretta Szczotka-Flynn OD, PhD is the Philip F. and Elizabeth G Searle - Suber Huang Professor in the Department of Ophthalmology & Visual Sciences at Case Western Reserve University (CWRU) with a secondary appointment in the Department of Population & Quantitative Health Sciences. She is also the Director of the Vision Research Coordinating Center and the Contact Lens Service at the University Hospitals Eye Institute at University Hospitals of Cleveland and CWRU. She received her Doctorate of Optometry and Masters of Physiological Optics from The Ohio State University and her PhD in Epidemiology from CWRU. She is the primary instructor for semester-long graduate level course "Clinical Trials" at CWRU since 2019. She is a Fellow in the American Academy of Optometry and Diplomate in the Academy's Section on Cornea, Contact Lenses and Refractive Technologies where she is Past Chair of the Section. She is a Vice-President in the International Society for Contact Lens Research; Vice President of the American Academy of Optometry Foundation, serves on the Board of International Keratoconus Academy and the Eye and Contact Lens Association; and is an Associate Editor for *Eye & Contact Lens Journal*. Her clinical and research interests include contact lens associated corneal inflammation and infection, keratoconus, and corneal transplantation which have been funded by the National Eye Institute (NEI). She was/is Director of the Coordinating Center for two large multicenter NEI funded trials in corneal transplantation; the Cornea Preservation Time Study from 2011-2017 and since 2021, the Diabetes Endothelial Keratoplasty Study (DEKS). She was also funded by NEI to study the genetic susceptibility to contact lens associated microbial keratitis.
